

FRAME BAG

Mounting instructions

Please note: Attaching bags to your bike may cause damage to its paintwork. To protect against wear and tear, we recommend applying protective tape over attachment points on your bike's frame before using any bags.

1. If using the accessory cable opening, take out the cable before attaching the bag to the bike (A).
2. Attach all velcro loops and tighten as hard as possible (B). If velcro straps are way too long, trim to adapt.
3. Max. load 6kg/13.2lbs
4. Zipper Care instructions:
Zipper should be cleaned and lubricated regularly. Clean with zipper specific cleaning fluid, or mild soap and water along with a soft brush (ie a tooth brush). Zipper should be completely dry before adding lubricate. Use zipper recommended lubricant.

FRAME BAG

Mounting instructions

WARNING! *Install, open or access the bags only when the bicycle is not in motion. Doing so while riding can make you lose control and fall and can result in serious injury.* **WARNING!** *Before riding with any bags, make sure they are securely installed, and all cargo items are securely stored. Failure to do so may result in bags coming loose or items falling out, both of which can make you lose control and fall and can result in serious injury. Adding cargo to your bicycle may affect its handling. Before your first ride, you should practice riding with a cargo bag installed and loaded in a controlled environment away from traffic.*
